**CHAIRPERSON:** Ann J.

Who could have guessed that a week after we were all together in March our world would change so completely?! Every day seems to bring a new twist to our ever-evolving year. Many aspects of our program come to my mind in planning our Area business meetings in the next coming months. One Day at a Time, First Thing First and Let Go and Let God are just a few that I'm leaning on to help make decisions.

As of right now both the August AWSC Meeting and the Fall Assembly will be held in person at the Hotel Mead with the knowledge that many will be attending remotely (maybe even everyone, time will tell!) I'm so grateful our Area started working on remote attendance capabilities last year, our Webmaster and Tech Committee are definitely going to be put to the test in the next few months. Thanks ahead of time for all your efforts!

A few other Areas around the country have already held AWSC Meetings and Assemblies either entirely or partially remotely and have been sharing their experience on different AFG Connect sites; we are using that information to help plan how to run ours. The Policy Committee will meet the second week of July to help do a smaller 'test run' of the remote process for the AWSC. The AWSC Meeting will then be another larger 'test' for the full Assembly in September. We appreciate everyone's patience and cooperation as we figure this process out. If you have any experience you feel will help with the planning, it would be most welcomed.

During this time, I have begun to work on two of my Chairperson goals for this panel. The first is setting up timelines for all our reporting processes and the second is establishing written procedures for each Area position. For both, I have been gathering information from several sources both in our Area along with other Areas. My next step is to recruit a couple of members to help with creating a template for all to use and begin the work of getting everyone to adapt it when writing out their position duties. More to come...

Please contact me with comments or questions at my Area email address, [chairperson@area61afg.org](mailto:chairperson@area61afg.org).

Stay healthy, sane, and AI-Anon!
